

CONSOLIDATED TURNOVER FOR 1ST HALF 2016 UP BY 5.05%

Blagnac, France, and Montreal, Canada, 27 July 2016 - SOGECCLAIR, designer of innovative, high added value solutions and products for the aerospace and transport sectors, today announced its turnover for the first half ending 30 June 2016.

Consolidated group turnover for the first half stands at €67.73 million compared with €64.47 million for the same period in 2015, that is to say up by 5% like for like.

Turnover breaks down by sector of activity as follows:

Sector	H1-2016 turnover (€ million)	H1-2015 turnover (€ million)	2015-2016 variation (%)
Aerospace	60.88	57.70	+5.51
Vehicle	0.73	1.15	-36.51
Simulation	6.12	5.61	+9.05
Total	67.73	64.47	+5.05
<i>International</i>	35.88	30.23	+18.68

Half-year marked by the deployment of technological and positioning innovations

During the last half SOGECCLAIR has pursued its strategy hinging around the following main points:

- pursued international development with the opening of a new office in Savannah, Georgia (USA). In total, turnover outside France accounts for 53% of total turnover;
- development of innovative offerings through support activities in the production and in-service life cycles of aircraft with, for example, the opening of offices in Loire-Atlantique (already with more than 50 staff). These activities ensure closer ties between our design and production professions and represent more than one third of total turnover;
- strengthening of its Innovative Product activities with rapid scaling up of thermoplastic composite activities (wing access doors) which generate increasingly recurring revenue streams and long-term order books. With the good performance of the Simulation activities, products count for more than one third of total turnover;
- maintained expertise and skills, keys for the development of new programmes, with the participation in the main R&D programmes in all of the company's areas such as the aircraft of the future, autonomous vehicles, etc.

In a context where we are seeing a significant fall-back in its historical development activities, and thanks to its good understanding of its markets, SOGECCLAIR has managed to anticipate, redirect its strategy and investments towards technological innovation, and focus increasingly on recurring activities.

It intends to continue along these lines, which give it sound foundations for its future development.

Next announcement: Results for the 1st half 2016: 14 September 2016 after the close of the Stock Market.

About SOGECCLAIR

Designer of innovative, high added value solutions and products, SOGECCLAIR brings its skills in high-quality engineering and production to a broad range of cutting-edge industries, notably aeronautics, space and transport. Supporting its customers from the design and simulation stages through to the end of the product's lifetime, all along the production chain and for entry into service, the Group counts nearly 1,400 staff working worldwide to offer a high-quality, proximity service to all its customers.

SOGECCLAIR is listed on NYSE Euronext Paris – Compartment C – Code ISIN: FR0000065864 – PEA PME 150
