

VALENTIN REYJAL APPOINTED VICE PRESIDENT OF THE RAIL SIMULATION BUSINESS LINE AT SOGECCLAIR

Blagnac, France, November 18, 2025, SOGECCLAIR, supplier of innovative solutions for more efficient and safer mobility, announces the appointment of Valentin Reyjal as Vice President of the Rail Simulation Business Line.

Holding a Specialised Master's degree in Innovation & Transformation from CentraleSupélec, a Master's degree in IT Engineering from EPITECH, and a diploma in IT management from the Dublin Institute of Technology, Valentin Reyjal brings more than ten years of experience in simulation and 3D development, supporting complex industrial and technological projects.

"Valentin Reyjal fully embodies the values of innovation, expertise, and collaboration that guide SOGECCLAIR. We are confident in his ability to successfully lead the Rail Simulation Business Line while strengthening our commitment to international customers and partners," says Stéphanie Martel, Human Resources Director at SOGECCLAIR.

After working at GDI Simulation, Valentin Reyjal held both technical and commercial roles while leading teams specializing in 3D design and development. He then joined Agenium as Head of 3D & Simulation Development, later becoming Chief Operating Officer, overseeing technical solutions, product roadmaps, and the development of simulators integrating advanced technologies.

In his new role, Valentin Reyjal will be responsible for leading the strategic and operational development of the Rail Simulation Business Line. He will oversee product and technology strategy, ensure the quality, reliability and performance of the solutions offered, and ensure that each project fully meets the needs of international customers and partners. He will draw on the expertise of teams based in France, Australia, India, England and North America to offer increasingly high-performance, innovative, and sustainable rail simulation solutions and to support customers over the long term.

« I am honored to join SOGECCLAIR and contribute to the development of the Rail Simulation Business Line. With passionate, fully committed, and international teams, we will continue to support our customers in their pursuit of sustainable and responsible, placing simulation-based training at the heart of safety, efficiency, and operational readiness », says Valentin Reyjal, Vice President of the Rail Simulation Business Line at SOGECCLAIR.

This appointment reflects SOGECCLAIR's intention to strengthen its role as a partner to mobility stakeholders. Through innovation, the quality, and the reliability of its solutions, SOGECCLAIR reaffirms its ambition to address the challenges of tomorrow's mobility.

ABOUT SOGECCLAIR

Supplier of innovative high added-value solutions for safer and less-consuming mobility, SOGECCLAIR brings its skills in high-quality engineering and production to a broad range of cutting-edge sectors notably aeronautics, space, vehicle, rail and defense. Supporting its customers and partners from the design and simulation stages through to the end of the product's lifetime, all along the production chain through to entry into service, the collaborators are working worldwide to offer a high-quality and proximity service to all its customers.
